

Volunteers of America

Saint James Place II

Program Snapshot

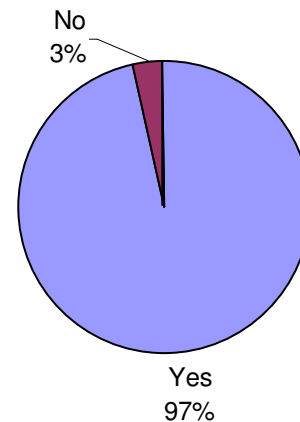

169 Deweese Street, Rm. 2111 • Lexington, KY 40507 • (859) 388 -9260 • www.voaky.org

Volunteers of America's Homeless Veteran's Supportive Services Program provides intensive case management services to homeless veterans living at St. James Phase II, the veteran's wing of St. James Place, a single-room occupancy facility owned by The Foundation for Affordable Housing. A transitional housing program for homeless veterans, St. James II is often the next step in a continuum of services for individuals who complete Volunteers of America's Homeless Veterans Transitional Treatment Program. Focused on maintaining long-term sobriety while increasing employment and life skills, residents can stay in this program for up to two years. Upon completion of Saint James II, residents move into permanent housing with increased skills and independence.

FY 2008 Outcomes

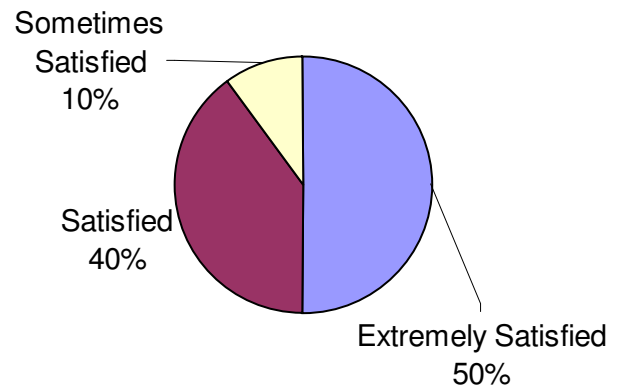

- 89 percent who have successfully completed the program have achieved housing and demonstrate attitudes and behaviors associated with residential stability.
- 72 percent of those who completed the program are working full-time.
- 75 percent had a history of alcohol and/or drug abuse; 100 percent appear to be sober at six months.
